CARE GIVERS

Registered Nurses
Physical Therapists
Occupational Therapists
Licensed Vocational Nurses

All of our caregivers have undergone comprehensive security and health screenings, and training and have acute care experience.

Superior Training. We employ highly trained clinicians who use the latest clinical knowledge to manage patient care. Our clinical care team takes a deeper look to assess underlying health needs in addition to current requirements.

Pediatric Specialists. A select group of our specially trained infusion nurses care for our pediatric patients. Care at Home is well known for its center of excellence to care for this delicate group of patients.

Coordinated Patient Intake. Our well coordinated Intake process ensures a smooth transition for your patients. For your convenience our intake line is staffed 7 days a week.

Superior Technology. Our state-of-the-art electronic medical records work to ensure seamless communication among hospitals, physicians, health plans and the Care at Home team to ensure quality care outcomes.
